

One Tool. Multiple Benefits. Exponential Results.

Prodoscore analyzes data from your CRM, UCaaS provider, Office Suite, and more to deliver Actionable Analytics™ that increase employee productivity and company performance.

“Prodoscore was great because it gave a full picture of everyone’s productivity, but provided a single number to keep track of.”

Pip Witheredge
CEO, Grove Group

Improve IT Adoption

Utilization of software apps is a cornerstone of productivity metrics and employees are encouraged to adopt the desired software in order to boost their score.

Boost Sales Productivity

Visualize exactly how your sales staff spends their days and which activities translate to closed deals so the behaviors of top performers can be replicated across the team.

Empower Your Employees

Give employees the ability to see how their time is spent on different tools and tasks so they can proactively identify where they need to improve and develop their skills.
